

LPS1175 Security Rated Pedestrian Control Terra Diamond Turnstile

Generated on 28.03.2020

Detailed description

heavy duty, high security turnstile designed to withstand extreme pedestrian attack.

The Terra Diamond Turnstile has resisted an intensive attack test programme in accordance with LPS 1175: Issue 8, which involved a series of attack tests each lasting at least ten minutes using a wide array of hand and battery powered tools. It is manufactured from robust carbon steel. The turnstile allows only single file authorized access and includes an anti-return solenoid lock and status indicator with a red and green light.

It has a heavy duty, vandal resistant head mechanism long with a metal reinforced high security lid and is set to fail secure in the event of power failure.

Red book listing.

Secured by Design accredited.

Applications:

Suitable for access through a perimeter fence line. Approved for Government Use, contact CPNI for details.

Product guidance - As Standard

Size (h x w) (walkway):

2020 x 500 mm.

Finish:

Shotblasted, hot zinc sprayed, primed and finished with a final coat of polyurethane paint to a BS or RAL number. This process provides a 20-year corrosion protection system for exterior, industrially polluted inland sites to BS 5493.
