

Pedestrian Control Full Height Turnstile - FPT1

Generated on 28.03.2020

Detailed description

A perimeter full height turnstile (model FTP1) available as single or twin-cage versions. Fully welded from carbon steel sections and include a carbon steel rotor (stainless steel rotor optional), available in either three or four section forms. Hydraulic clamping units are fitted which prevent the slamming of the rotors, enhancing operation and increasing reliability. In an emergency, the turnstiles can be set to either fail safe or fail secure.

Applications:

Suitable for access through a perimeter fence line.

Product guidance - As Standard

Height (walkway):

2020 mm.

Width (walkway):

610 mm (120° rotor), 520 mm (90° rotor).

Finish:

Shotblasted, hot zinc sprayed, primed and finished with a final coat of polyurethane paint to a BS or RAL number. This process provides a 20-year corrosion protection system for exterior, industrially polluted inland sites to BS 5493.
